

FOUNDATIONS CONTENTS

0.0. Introduction	10
0.1. <i>Preliminary Thoughts on Ecological Design</i>	
0.1.1. What this work is Not	
0.1.2. What this work Is	
0.1.3. What we need to do & Why it would work	
0.1.4. What can you do?	
0.2. <i>Designing Places</i>	17
0.2.1. Starting with Ecological Design	
0.2.2. A Snapshot of Ecological Design	
0.2.3. How should We Regard Ecological Design?	
0.3. <i>Design Science as Poetic Production (Conversations with R.B. Fuller)</i>	20
0.3.1. Allowing Flatscapes of Design	
0.3.2. Designing Real Living Places: Eutopian Experiment	
0.3.3. How Can We Redesign the Experiment?	
0.3.4. Expanding Poetic Production	
1.0. Preparing for Challenges to Design	27
1.1. The Rape of Gaia: Facing Damaged Systems & Networks of Problems	
1.1.1. Human & Ambihuman Deaths	
1.1.2. Catastrophe & Progress	
1.1.3. Eight Terrible Losses: Nature to Design	
1.1.4. A Bad Combination	
1.2. Recognizing Perceptual Challenges	42
1.2.1. Focus/Frame	
1.2.2. Small/Large Scales	
1.2.3. Local/Global Fields	
1.2.4. Minimum/Maximum Limits	
1.2.5. Generating Problems	
1.3. Fashioning Tools for Challenges & Problems	47
1.3.1. General Tools: Language Myth & Logic	
1.3.2. Words as Tools: Home to Design	
1.3.3. Naming with Metaphors	
1.3.4. Questioning Things: Socratic, Hardinian, Maslovian Methods	
1.4. Noticing Local & Global Gigatrends	63
1.4.1. Ecosystem Trends	
1.4.2. General Gigatrends for Human Populations & Needs	
1.4.3. Gigatrends in Economics & Technology	
1.4.4. Social & Political Gigatrends	
1.4.5. Positive Trends	
1.4.6. Summary: How Will They End?	
1.5. Performing Ecological Thought Experiments	70
1.5.1. Sample Thought Experiments: Forests, Populations & Roads	
1.5.2. What if all Urban Concentrations were Arcologies?	
1.5.3. What would the Environment & Civilizations Look Like in 2060?	
1.5.4. Conclusions: And Then What?	
1.6. Using Basic Analysis Synthesis Systems & Other Tools	77
1.6.1. Linguistic & Historical Analysis	

1.6.2. Systems Analysis: Physical Biological Ecological Cultural	
1.6.3. Ecological Analysis & Synthesis	
1.7. Threading Systems with Physical and Metaphysical Themes	95
1.7.1. Physical & Ecological Limits	
1.7.2. Scale of Matter & Energy	
1.7.3. Fields (Properties & Changes)	
1.7.4. Living Fields (Person & Place)	
1.8. <i>Having Educated Fun with Words Numbers Links & Images</i>	114
1.8.1. Literacy	
1.8.2. Numeracy	
1.8.3. Ecolacy	
1.8.4. Discussion of Filters	
1.8.5. Imagacy	
2.0. Approaching Ecosystems with Design	120
2.1. <i>Human Design & Regions</i>	
2.1.1. Why design?	
2.1.2. What is the Local Scale?	
2.1.3. Why Start with the Local or Global?	
2.2. <i>Holecological History & Life</i>	124
2.2.1. Geological Cycles & Climate	
2.2.2. Holecological History	
2.3. <i>What is Natural Design?</i>	129
2.3.1. Does Nature design?	
2.3.2. Natural Design	
2.3.3. Principles of Nature?	
2.4. <i>What is Traditional Design?</i>	139
2.4.1. What is Traditional Design?	
2.4.2. What is the Difference between Natural & Human Design?	
2.4.3. Design Components Elements & Variations	
2.4.4. Principles of Traditional Design	
2.4.5. Applied Design Stages	
2.4.6. Three Levels of Traditional Design	
2.4.8. Summary	
2.5. <i>What is Ecological Design?</i>	155
2.5.1. Definition of Ecological Design	
2.5.2. Differences between Traditional & Ecological	
2.5.3. Ecological Design Components Elements & Variations	
2.5.4. Properties of Ecological Design	
2.5.5. Principles of Ecological Design	
2.5.6. Applied Ecological Design as Lessons	
2.5.7. Applying Ecological Design to Places	
2.5.8. Ecological Design Management	
2.5.9. Ecological Design	
2.6. <i>What is Regional & Global Ecological Design?</i>	182
2.7. <i>Fitting Local with Regional & Global Designs</i>	202
2.7.1. Regions Emerge from & Constrain Local Systems	
2.7.2. Regions are Constrained by the Global System	
2.7.3. Are Local Designs Ever Independent of Regional Designs?	
2.7.4. Leaving Hooks & Flexibility	

2.8. <i>Insurmountable Problems at the Local & Global Levels</i>	205
2.8.1. Water & Drought	
2.8.2. Energy & Desire	
2.8.3. Liberty & Crime	
2.8.4. Globalization & Localization	
2.8.5. Tourism & Virtual Reality	
2.8.6. The Maintenance of Civilization	
3.0. Naming Nature for Design	216
3.1. <i>Design Factors: Elements & Materials</i>	
3.1.1. Elements	
3.1.2. Molecules & Materials	
3.1.3. Elements as resources	
3.2. <i>Design Factors: Events Processes Flows & Connections</i>	223
3.2.1. Processes	
3.2.2. Events	
3.2.3. Flows	
3.3. <i>Design Factors: Ecosystems Communities & Organisms</i>	230
3.3.1. Communities & Ecosystems	
3.3.3. Populations Organisms & Organic Structures	
3.4. <i>Design Factors: Landscapes Forms & Structures</i>	239
3.4.1. Landscapes	
3.4.2. Biomes	
3.4.3. Dealing with Change	
3.5. <i>Design Factors: Local & Planetary Cycles</i>	244
3.5.1. Individual Cycles	
3.5.2. Interactions of Cycles with Ecosystems	
3.6. <i>Design Factors: Planetary Spheres</i>	250
3.6.1. Geosphere	
3.6.2. Hydrosphere	
3.6.3. Atmosphere	
3.6.4. Biosphere	
3.7. <i>Design Factors: Intricate Patterns</i>	255
3.7.1. Distribution & Density	
3.7.2. Surprise & Joy at Diversity	
3.7.3. Unique Places	
3.7.4. Living Places as Invested Ecosystems	
3.7.5. Patterns	
4.0. Designing Nature	263
4.1. <i>Local-Global Problems: Atmospheric Change</i>	
4.1.1. Anthropogenic Change & Atmospheric Heating	
4.1.2. Greenhouse Gases	
4.2. <i>Local-Regional Problems: Water Flow</i>	267
4.2.1. Water Cycle Restated	
4.2.2. Interaction of Cycles	
4.2.3. Problems with Disrupted Cycles	
4.2.4. Valuing Water	
4.2.5. Designing Water Flows	
4.3. <i>Design Factors: Animal Interactions</i>	271

4.6.1. Wild Animals & Species	
4.6.2. Interactions in Nature: Exploitation Disturbance & Interference	
4.4. <i>Design Factors: Wilderness</i>	285
4.7.1. What is Wilderness?	
4.7.2. Do We Need Wilderness?	
5.0. Facing Culture for Design	290
5.1. <i>What is Humanity? Human Ecology and Political Limits?</i>	
5.1.1. Living Together: Participating in the Flow of Life	
5.1.2. Adaptive patterns of Living: Ecstasy & Otherness	
5.1.3. Attachment to Place: Joy of Entanglement	
5.1.4. Human Ecology & Political Limits	
5.2. <i>What is Culture? Adaptable? Global?</i>	304
5.2.1. Animate Culture	
5.2.2. What is Human Culture?	
5.2.3. Dependence & Constraints	
5.2.4. Health of a Culture	
5.3. <i>Design Factors: Adaptive Reconstructive Patterns—Agriculture</i>	320
5.3.1. Historical Pattern of Agriculture	
5.3.2. Farmland Designs	
5.3.3. Timberland Plantation Designs	
5.4. <i>Design Factors: Adaptive Patterns—Technology History</i>	327
5.4.1. Historical Pattern of Technology	
5.4.2. Tools Small Things Electronics	
5.4.4. Transportation/vehicles	
5.5. <i>Design Factors: Adaptive Patterns—Urbanization & Civilization</i>	335
5.5.1. Cities & Patterns (Ideals or Traps)	
5.5.2. Large Buildings	
5.5.3. Small Place Design	
5.6. <i>Design Factors: Adaptive Patterns—Civilization & Industrialization</i>	344
5.7. <i>Problems: Ecosystem & Cultural Collapse</i>	351
5.7.1. The Spectrum of Collapse	
5.7.2. Discussion of Collapse	
5.7.3. Patterns of Collapse: Recovery & Renewal	
5.7.4. Future Collapse: What is to Fear?	
5.8. <i>Problems: Culture & Bad Images</i>	363
5.8.1. Patterns & Cultural Transformations	
5.8.2. Challenges & Traps	
5.8.3. Problems Facing Cultures	
5.9. <i>Problems: Erasing Cultures</i>	370
5.9.1. Begetting Problems	
5.9.2. Redefining Culture	
5.9.3. A Frame for Cultures	
5.9.4. Summary: Nightmares & Wisdom	
6.0. Designing Domiture	375
6.1. <i>Culture & Nature Coevolving: Domiture</i>	
6.2. <i>Practicing Ecosystem Medicine</i>	378
6.2.1. Brief History of Medicine	
6.2.2. Strengths & Problems of Medicine	

6.2.3. Extensions to Medicine: Health to Conservation	
6.2.4. Ecosystem Medicine	
6.3. <i>Problems: Conversion & Interference</i>	394
6.3.1. Cultural Conversion of Places	
6.3.2. Interference	
6.3.3. Humanity as an Agent of Change in History	
6.3.4. Practicing Noninterference	
6.4. <i>Problems: Technology</i>	402
6.4.1. Physical Problems	
6.4.2. Cultural problems	
6.4.3. Conclusion: Questioning a Machine Image	
6.5. <i>Cultural Changes from Technology</i>	415
6.6. <i>Integrating & Limiting Technology</i>	416
6.6.1. Purposes of Technology	
6.6.2. Usefulness (Alternative & Appropriate)	
6.6.3. Combining Tools Machines Automaton & Hybrids	
7.0. Managing Design Levels	432
7.1. <i>Problems: Growth Inequality Poverty Dominance & Slavery</i>	
7.1.1. Growth—Population & Economies	
7.1.2. Inequality—Economic & Social	
7.1.3. Poverty & Consumption	
7.1.4. Cultural Dominance: Colonialization	
7.1.5. Cultural Dominance: Slavery	
7.2. <i>Design Factors: Avoiding Adaptations & Traps</i>	446
7.2.1. Adaptation & Drift	
7.2.2. Drifts & Traps	
7.3. <i>Design Factors: Economics or Koinomics</i>	449
7.3.1. Traditional Economics	
7.3.2. Modern Economics	
7.3.3. Holeconomics	
7.3.4. Problems: Corporations	
7.4. <i>Managing Multiscalar Interacting Technologies</i>	457
8.0. Designing Good Places	463
8.1. <i>Problems: Intolerance Conflict & War—Grey Earth</i>	
8.1.1. Intolerance	
8.1.2. Kinds of Conflict	
8.1.3. War	
8.1.4. Summary: Inseparable Behaviors	
8.2. <i>Design Factors: Commons</i>	469
8.2.1. Tragedy of the Commons	
8.2.2. Actions Profits & Losses	
8.2.3. Resolution of Tragedy	
8.3. <i>Design Factors: Behavioral Constraints Ethics & Religions</i>	471
8.3.1. Plain Ethics, Living Alone	
8.3.2. Pan Ethics, Living Together	
8.3.3. Relating Being to Rights	
8.3.4. Binding Humanity to Places	

8.4. <i>Design Factors: Politics or Ecocybernetics</i>	481
8.4.1. Forms of Governing & Leading	
8.4.2. Functions of Politics	
8.5. <i>Survival Requisites & Design</i>	498
8.6. <i>Foundation Summary</i>	508
9.0. Appendix	509
9.1. Notes	
9.2. Special Glossary	
9.3. Partial Bibliography	520
9.4. Brief Biographies	537
9.5. Contacts: Web pages & Email Addresses	537
9.6. Index
